

Paperwork Reduction Act

This proposed regulation revises paragraph (a)(1) of § 416.1615. Section 416.1615 of the regulations contains reporting requirements. We would normally seek approval of these requirements (under the Paperwork Reduction Act) from OMB. We are not doing so because we already have clearance from OMB to collect this information under OMB No. 0960-0451.

Public reporting burden for this collection of information is estimated to average 5 minutes per response. This includes the time it will take to read the instructions, gather the necessary facts, and provide the information. We expect approximately 234,800 claimants per year will be responding, and estimate the total burden to be 19,567 hours. If you have any comments or suggestions on this estimate, see the **Addresses** section of this document.

BILLING CODE 4190-29-P

DEPARTMENT OF LABOR**Occupational Safety and Health Administration****29 CFR Part 1926****Steel Erection Negotiated Rulemaking Advisory Committee**

AGENCY: Occupational Safety and Health Administration (OSHA), Labor.

ACTION: Notice of Committee meeting.

SUMMARY: Under the provisions of the Federal Advisory Committee Act (FACA), notice is hereby given of a meeting of the Steel Erection Negotiated Rulemaking Advisory Committee (SENAC). Notice is also given of the location of the meeting. This meeting will be open to the public.

DATES: The meeting is scheduled for September 19-21, 1995. The meeting will begin at 10:00 a.m. on September 19th.

ADDRESSES: U.S. Department of Labor, DOL Academy, Room C-5321, Seminar Room 4, 200 Constitution Avenue, N.W., Washington, D.C. 20210.

FOR FURTHER INFORMATION CONTACT: Anne Cyr, Acting Director, Office of Information and Consumer Affairs, OSHA, U.S. Department of Labor, Room N-3647, 200 Constitution Avenue, N.W., Washington, D.C. 20210; telephone (202) 219-8151.

SUPPLEMENTARY INFORMATION: On May 11, 1994, OSHA announced that it had established the Steel Erection Negotiated Rulemaking Advisory Committee (SENAC) (59 FR 24389) in accordance with the Federal Advisory Committee Act (FACA), the Negotiated Rulemaking Act of 1990 (NRA) and section 7(b) of the Occupational Safety and Health Act (OSH Act) to resolve issues associated with the development of a Notice of Proposed Rulemaking on Steel Erection. Appointees to the Committee include representatives from labor, industry, public interests and government agencies.

SENAC began negotiations in mid-June, 1994, and has met nine times since. Initial meetings dealt with procedural matters, including schedules, agendas and the establishment of workgroups. The Committee established workgroups to address issues on Fall Protection,

Construction Specifications and Scope. During subsequent meetings, foundations for negotiations were established and additional workgroups were formed to address more specific issues and develop a draft revision of subpart R.

The Committee last met on June 27-29 where consensus was expected to be reached on a proposed revision of subpart R. The Committee did reach agreement on major issues and most of the elements of the draft revision; however, after much deliberation, they could not come to an agreement on fall protection. OSHA determined that since the Committee made significant progress on the fall protection issue and agreed to other very important improvements to the existing standard, it would allow the Committee to convene a workgroup to resolve the fall protection issue. On July 26, a workgroup met in Philadelphia and tentatively agreed on fall protection requirements for steel erection. This recommendation will be presented to the full SENAC Committee at the September meeting where it is expected that consensus will be reached on the complete draft proposal. OSHA will then complete the preamble and prepare the document in the proper **Federal Register** format for publication as a proposed rule.

All interested parties are invited to attend the Committee meetings at the time and place indicated above. No advanced registration is required. Seating will be available to the public on a first-come-first-served basis. Persons with disabilities, who need special accommodations, should contact the Facilitator by September 12, 1995. During the meeting, members of the general public may informally request permission to address the Committee.

Minutes of the meetings and materials prepared for the Committee will be available for public inspection at the OSHA Docket Office, N-2625, 200 Constitution Ave., N.W., Washington, D.C. 20210; telephone (202) 219-7894. Copies of these materials may be obtained by sending a written request to the Facilitator.

The Facilitator, Philip J. Harter, can be reached at Suite 404, 2301 M Street, N.W., Washington, D.C. 20037; telephone (202) 887-1033, FAX (202) 887-1036.

[GA-033-1-7037b; FRL-5276-2]

Approval and Promulgation of Implementation Plans Georgia: Approval of Revisions to Minor Source Permit Regulations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA proposes to approve the State Implementation Plan (SIP) revision submitted by the State of Georgia for the purpose of establishing a Federally enforceable state operating permit (FESOP) program. In order to extend the Federal enforceability of Georgia's FESOP to hazardous air pollutants (HAP), EPA is also proposing approval of Georgia's FESOP regulations pursuant to section 112 of the Clean Air Act as amended in 1990 (CAA). In the Final Rules Section of this **Federal Register**, EPA is approving the State's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial revision amendment and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to that direct final rule, no further activity is contemplated in relation to this proposed rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this document. Any parties interested in commenting on this document should do so at this time.

DATES: To be considered, comments must be received by September 29, 1995.

ADDRESSES: Written comments should be addressed to: Yolanda Adams, Air Programs Branch, Air, Pesticides & Toxics Management Division, Region 4 Environmental Protection Agency, 345 Courtland Street, NE, Atlanta, Georgia 30365.

Copies of the material submitted by Georgia may be examined during normal business hours at the following locations:

Air and Radiation Docket and Information Center (Air Docket 6102), U.S. Environmental Protection Agency, 401 M Street, SW, Washington, DC 20460.

Environmental Protection Agency, Region 4 Air Programs Branch, 345 Courtland Street, NE, Atlanta, Georgia 30365.

Air Protection Branch, Environmental Protection Division, Georgia Department of Natural Resources, 4244 International Parkway, Suite 120, Atlanta, Georgia 30354.

Clean Air Act Approval and Promulgation of PM₁₀ State Implementation Plan for Montana; Missoula Air Pollution Control Program Regulations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA proposes to approve the State implementation plan (SIP) revisions submitted by the State of Montana with a letter dated March 3, 1995. This submittal consists of several revisions to Missoula City-County Air Pollution Control Program regulations, which were adopted by the Montana Board of Health and Environmental Sciences (MBHES) on September 16, 1994. These rules include regulations regarding emergency procedure, paving of roads, driveways, and parking lots, street sweeping, National standards of performance for new stationary sources (NSPS), National Emission Standards for Hazardous Air Pollutants (NESHAPs), and solid fuel burning
